

Alba Diagnostics Ltd.

Environmental Policy

Alba Diagnostics Ltd is committed to a positive and responsible course of action with regard to those aspects of the business, which impact upon the environment. It seeks always to act in accordance with good practice, preserving and, where possible, enhancing the quality of the environment. In all aspects of work, the company is committed to legal compliance.

Commitment to the environment is demonstrated by maintaining an Environmental Management System, which meets the requirements of ISO 14001 and is focused on preventing pollution and continuously improving the company performance. Key components of the system include the establishment of environmental objectives and targets, which require the company to achieve continual improvement and the establishment of programmes to ensure satisfaction of these improvements, objectives and targets.

We are committed to:

- Reducing energy consumption on site
- Recycling materials and minimize waste
- Improving our product by designing out environmental risks, including banned or restricted chemicals
- Recycling and reuse packaging, wherever possible
- Protecting natural resources
- Reducing water use on site
- Training staff and increasing awareness to reduce our environmental impacts

Management, staff and employees are encouraged to liaise and work closely with suppliers, sub-contractors, regulators and customers to ensure the services will meet and exceed all regulatory requirements and other applicable requirements. Questions and enquiries should be directed to the EMS Representative. This policy is publicly available.
